

ALESSIO CURCIO

University student

Profile

Hi, I'm Alessio and I'm currently a 3rd year student at the Sapienza University of Rome in the Faculty of Applied Computer Science and Artificial Intelligence (ACSAI).

Skills / Experiences

Info

-  Rome, 21/08/2004
-  +39 3711712524
-  alessio.curcio04@gmail.com
-  Ciampino, Rome

Education

SCIENTIFIC HIGH SCHOOL - APPLIED SCIENCES / COMPUTER

Graduated with a final grade of 98/100.

Bachelor of ACSAI

Sapienza University

3rd year student

Languages

English - B2 certification

Italian native language

Coding skills

Programming experience in Python (main programming language), C++, C, R, Java and html/javascript.

- I scored 30 and 30 cum laude in the programming exams at university (Python and Java exams).

Competition

During high school I participated in :

- Mathematics, Computer Science and Problem Solving Olympics reaching regional stages;
- Bocconi University's game reaching national stages;
- Obtaining the maximum score in the TeraBebras competition;
- Cybersecurity competition passing the qualification stage.

Projects / Activities

Activities in association with IBM, Ericsson, Fondazione Mondo Digitale, Tor Vergata University. We have addressed topics as block programming for animation, chat bots for customer services and conducted research utilizing big data analytics to construct data-driven personality profiles for public figures using IBM web tools and servers, digital lab ai and robotics.

Certification / Experiences

- Achieved a B2 level certification in English;
- Participated in a study abroad program in Oxford;
- Currently pursuing a degree program entirely taught in English.

University faculty program

- Successfully passed key exams with high grades, including: Programming (in Python and Java), Linear Algebra, Calculus 1 and 2, Computer Architecture, Database and Management, Machine learning and Artificial Intelligence, Algorithms, Probability, and Physics;
- Attended a certified Html course at my university.
